## DETAILED ACTION

### *Claim Objections*

1. Claims 1-25 are objected to because of the following informalities: There are numerous places where letters are missing. The examiner has objected to all the claims so that applicant will carefully look at all the claims. The examiner has found missing letter in the following claimS:

Claims 2 , “id ntical” should be “identical”.

Claim 9, “tri thylsilyl” should be “triethylsilyl”

Claim 15, “bas “ should be “base”.

Claim 16 “diethyl ther” should be “diethyl ether” and “t rt-butyl” should be “tert-butyl”

Claim 23 “ag nt” should be “reagent”

Again the examiner listed the errors that he found. It is respectfully requested that applicant also look for missing letters in all the claims as well as the specification and submit the appropriate amendments.

Appropriate correction is required.

### *Allowable Subject Matter*

2. Claims 1-25 are allowed
3. The following is a statement of reasons for the indication of allowable subject matter: The claimed compounds are novel and unobvious. The prior art of record fails to suggest any structurally similar compounds. Once, the minor

grammatical errors have been corrected this case will be in condition for allowance.
